FIRE EXTINGUISHER	MAX	(-)	REMARKS:
	20		

Tabulated Deduction	<input type="text"/>
----------------------------	----------------------

This vehicle must be recognizable as an OLDSMOBILE built vehicle, and have a GM ENGINE.

Additions and deletions of any components or trim should be judged solely on their quality and installation.

A STREET STOCK or MODIFIED vehicle no longer conforms to original Supportive Literature; therefore, substitute the above OVERALL APPEAL for Supportive Literature. Deduct 0-15 points for this vehicles appeal to you as a team. EXAMPLE: Regardless of material and workmanship, if an entry does not "appeal" to you, deduct 10-15 points. Conversely, if the entry has shabby workmanship, but you like the attempt and basic design, then deduct 0 points. Remember, this is not the place to deduct points for some component you have already judged. This is OVERALL APPEAL.
